Customer Id

People look at you and they see a person of taste and accomplishment. You have an eye for things beautiful and classy. What people don't see is your inner power and the hard work behind the facade of glamour. Fate did not deal you a royal flush. You had to fight for things to come your way. You have done well for yourself and by yourself. And you have all the right in the world to express your taste and to exhibit your success. Let others believe you are sliding effortlessly through life. But never forget your true identity. Never forget the road you have taken to arrive where you are today.

TELLS A LOT ABOUT YOU

SLIDER SYSTEMS ARE A BIT LIKE YOU:
stunning on the outside, efficient on
the inside.

SLIDER is a premium sliding door systems brand that specializes in eye-catching design concepts and superior internal engineering. SLIDER products are a bit like you, outstanding and glamorous on the outside, efficient and hard-working on the inside. SLIDER offers a variety of profiles with unique design concepts. The key traits of SLIDER design philosophy are modern forms, contemporary colors, thin lines and minimalist door frames. The efficient inner workings of the sliding systems are carefully hidden from the eye: invisible upper rail, soft closing mechanism, state-of-the-art door wheels.

MODENA collection

MODENA name represents the new generation in the evolution of sliding door systems. The variety of profiles will surpass the expectations of the most demanding customers. The profiles come in six different modern colors in line with the latest industry trends. Thin lines and minimalist

door frames will emphasize the closet's beauty and refined design. MODENA sliding gear systems can be easily matched with a variety of door panels. MODENA

A NEW LUXURY FOR A NEW WORLD

FERO AIR is a real diamond in the SLIDER assortment, and the greatest source of pride for SLIDER as a company. This is a hanging system with a top track mounted on the ceiling or high on a wall. Innovative engineering features make FERO AIR the ideal system for the partition of home, office and other spaces. A system with a variety of functional capacities, FERO AIR comes in three tasteful colors: silver, white, and glossy champagne. This is an indispensable system for expensive and conceptual interiors.

For me, luxury in interior design is the capacity to create new worlds.

FERO

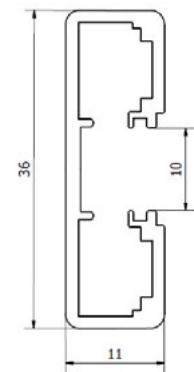

A NEW WORD IN THE EVOLUTION OF
SLIDING CLOSETS

SLIDER FERO is the most effective and stylish solution for sliding closets. The dynamism of the design concept is unleashed by a thin 7mm connecting profile. The mood is further enhanced by a unique opening handle that is both stylish and functional. Aesthetic neatness of the overall appearance was secured by carefully hiding the connecting elements of the system. People who seek to create impressive interiors can pick one of the three colors: silver, glossy champagne, or white.

I always believed that home
interiors reflect the owner's soul.

RATIONAL APPROACH TO LUXURY

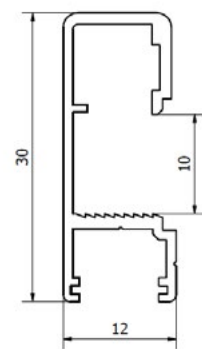

FERO MINI embodies the concept of tasteful luxury for a reasonable price. This system preserves the aesthetic ease and dynamism of the FERO collection. And it work equally well with both classic and modern interiors. Compared to FERO, however, FERO MINI is less complex when it comes to internal engineering, which is why this system is available for a significantly reduced price.

I don't like to overspend, but I know how to surround myself with luxury.
